

# 20/20 VISION

## YOUR LOCAL HEALTHCARE IS CHANGING!

### INTEGRATING CARE FOR PATIENTS AND THE COMMUNITY

The way local health and care services work together is changing.

Come to this first of two events to hear how services in Westminster, Kensington and Chelsea are planning to work together to meet health and care needs in our community.

### BE PART OF THE CONVERSATION!

We know you don't want to repeatedly tell your experiences to different health professionals. Here is your opportunity to hear from multiple organisations on how they will work together to address our health and care needs.

We are pleased to bring people who use the services and their carers together with service providers, commissioners and clinicians, to start a conversation on how services can work better together.

### JOIN US

When it comes to health and care, everyone is an expert, through lived experience or as a professional in the field. Please join us to be part of designing the future.
