Would you like
to get actively
involved in
our clinical
research?

We want people to help us design and conduct our research. We believe this kind of active input makes our research better.

Public involvement in research can lead to treatments that better meet the needs of users and the public, and to research results that are more likely to be put into practice.

There are a number of ways you can get actively involved in research:

- helping us to decide our priorities for new research
- advising researchers on what to measure in research, so that the answers are relevant to patients
- planning and carrying out research so that patients want to take part
- helping us explain research in understandable ways
- working with researchers to apply for funding
- monitoring research and communicating results to the public.

There are different ways patients and the public work with us. For example by:

- coming to one-off meetings and focus groups to talk with researchers about their work

- sitting on a panel of people which meets regularly to input into a particular research project
- becoming a member of a research steering group and working in partnership with scientists and health professionals overseeing research.

We are always looking for people to get actively involved in our work.

If you are interested in getting involved please fill in the form attached so we can tell you about opportunities to input into our work.

Please note this form is to register interest in getting actively involved helping us to design and conduct our research. It is not to register interest to take part in a study or trial.

Please put your form in the drop box provided at the welcome stall.

Alternatively you can return your form to Dr Rosamund Yu, PPI Manager by either email to **rosamund.yu@ucl.ac.uk** or post to Rosamund Yu, 1st Floor, Suite A, Maple House 149 Tottenham Court Road, London W1T 7DN

Please fill in this form if you would like to hear about opportunities to get actively involved in clinical research at University College London Hospitals NHS Foundation Trust and UCL.

Your name: _____

Please provide us with at least one way of contacting you.

Email: _____

Address: _____

Phone: _____

Areas of research you are interested in (optional):

We will only use this information to keep you informed about opportunities to get actively involved in clinical research at University College London Hospitals NHS Foundation Trust and UCL. Please note this form is not for people wanting to find out how to take part in a study or trial.

Please put your form in the drop box provided at the welcome stall.

Alternatively you can return your form to Dr Rosamund Yu, PPI Manager by either email to **rosamund.yu@ucl.ac.uk** or post to Rosamund Yu, 1st Floor, Suite A, Maple House, 149 Tottenham Court Road, London W1T 7DN

The National Institute for Health Research University College London Hospitals Biomedical Research Centre is a partnership between University College London Hospitals NHS Foundation Trust and UCL and is funded by the NIHR.
