

13th June 2018

Provision of Health and Support Services for People Affected by Grenfell Tower Fire

As the first anniversary of the Grenfell Tower fire approached, we wrote to West London Clinical Commissioning Group and Kensington & Chelsea Council under our statutory powers to find out what progress has been made in providing health and care support for people affected by the fire. They were required to respond to our questions by 13th June 2018.

We have received responses from West London CCG and Kensington & Chelsea Council, which can be found on our website here: <https://healthwatchcwl.co.uk/our-work/grenfell/>

We are currently looking at these answers and will post a statement setting out our next steps within the next week.

If you have any comments about the answers provided by West London CCG or Kensington & Chelsea Council, you can share these with us by emailing: grenfell@healthwatchcentralwestlondon.org

You can find the full list of questions we submitted in May here: <https://healthwatchcwl.co.uk/wp/wp-content/uploads/2018/05/Healthwatch-Central-West-London-Follow-Up-Questions-1.pdf>
